What is ICCS

The **Circular Economy Innovation Centre (CIEC)** of Madrid City Council is a circular economy hub that opened its doors in March 2022 and has more than 700 m2 of facilities where innovation, the creation of new employment opportunities, entrepreneurship and the creation of networks around the Circular Economy are promoted.

The CIEC is **promoted** by the Madrid City Council's Department of Economy, Innovation and Finance.

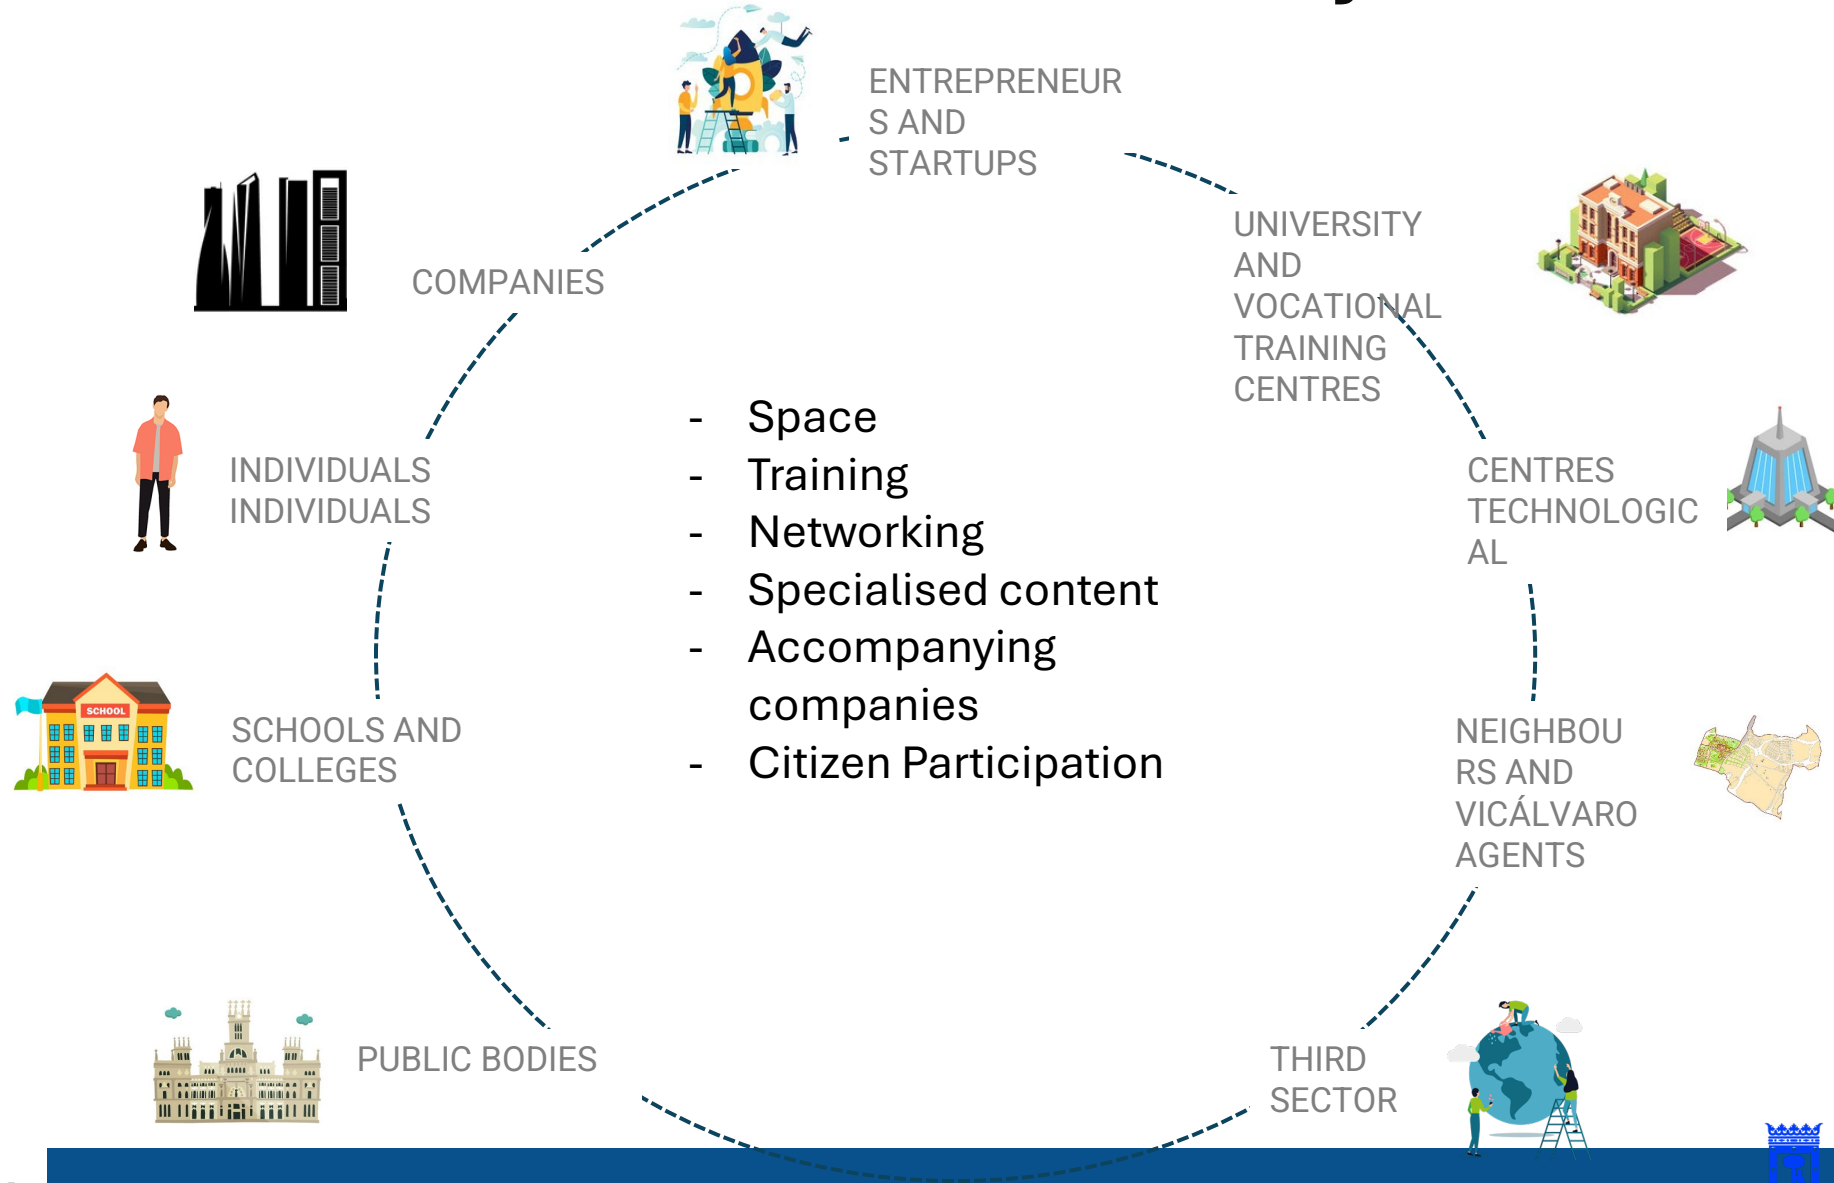

Centro de innovación en economía circular

CIEC and its link with the ecosystem

Objectives of the ICCS

Promote the implementation of the **circular economy** in **Madrid's business ecosystem**.

Create a **knowledge node around the circular economy** through experimentation.

Raise awareness of sustainable consumption and circular economy: less consumption of natural resources, less waste generation, better preservation of the environment and lower economic costs for producers and consumers.

CIEC programmes

ACCOMPANYING COMPANIES

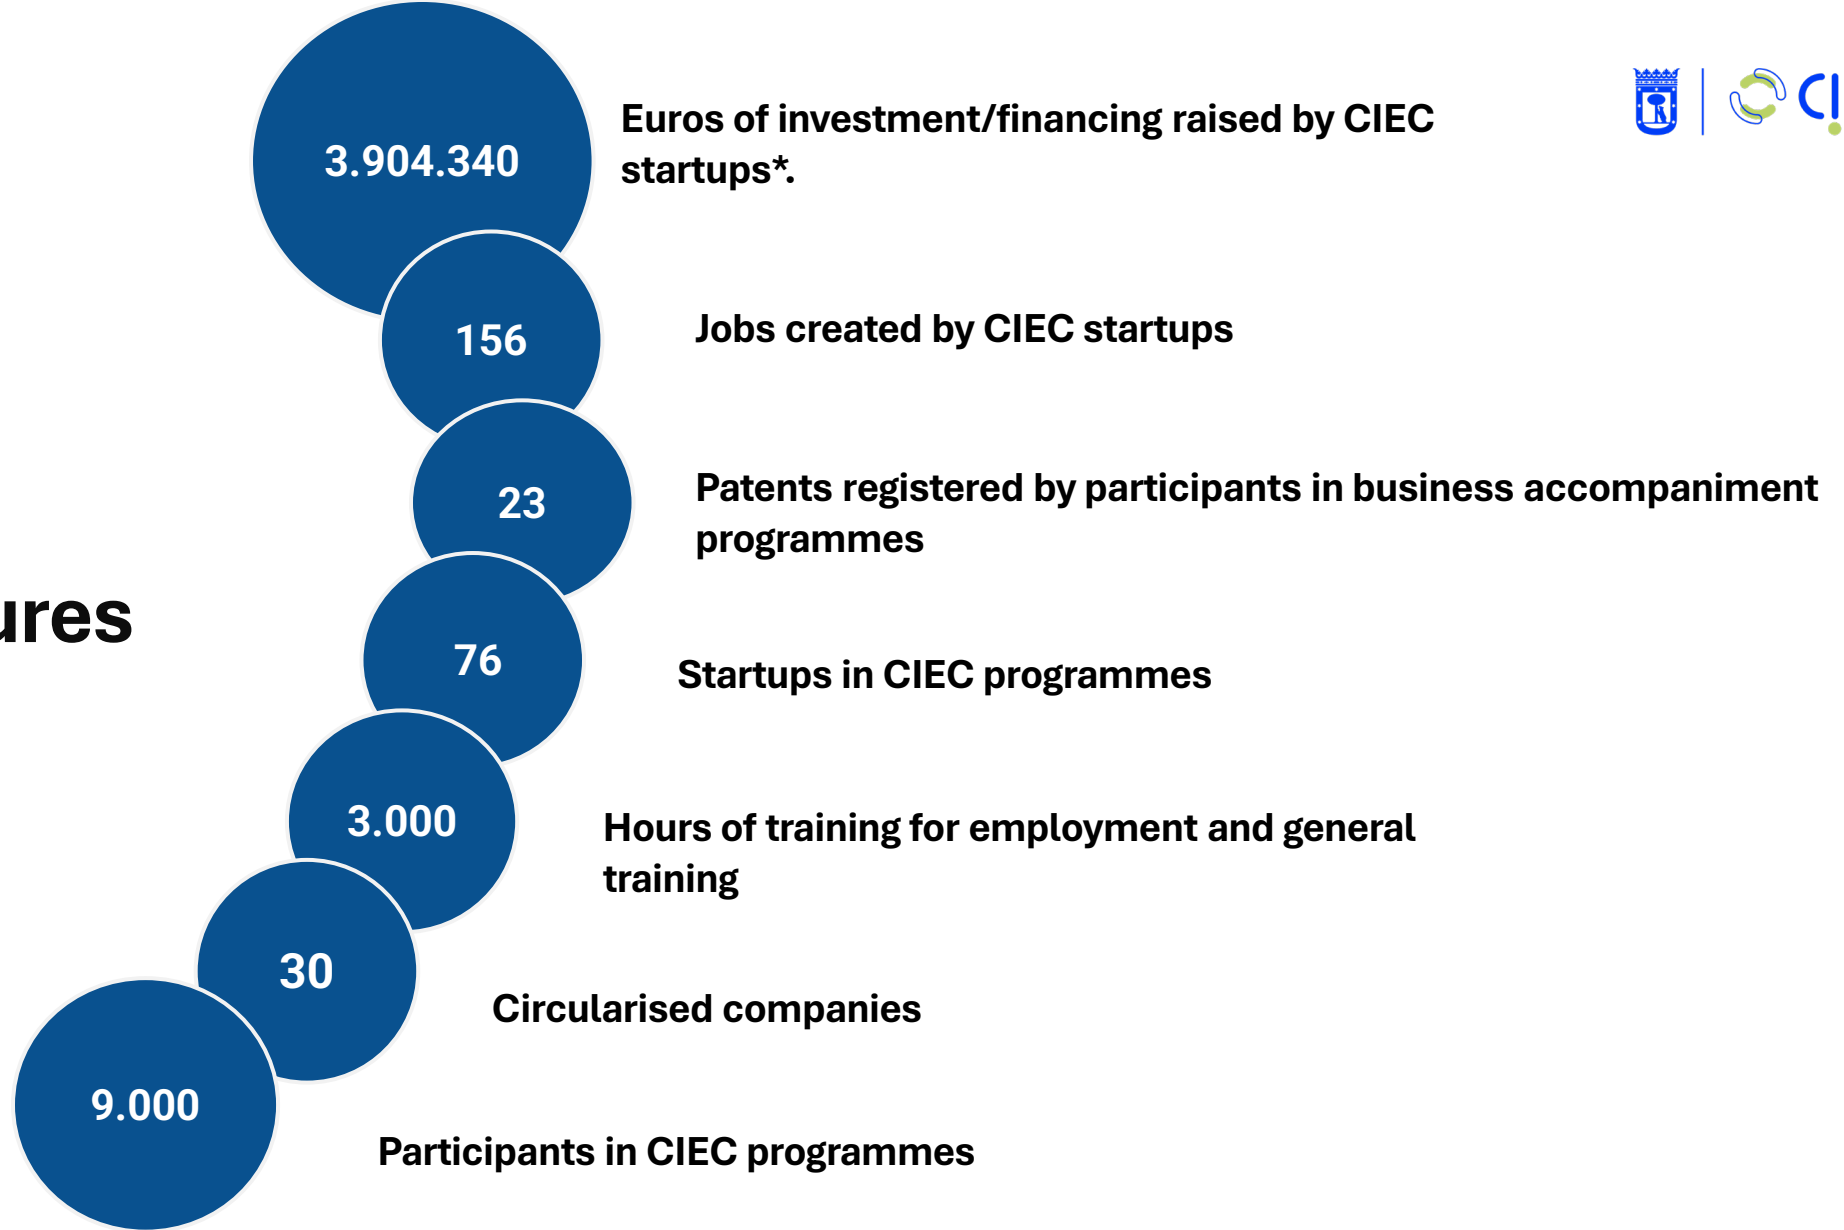

- Incubation
- Acceleration
- Circularisation

TRAINING AND AWARENESS-RAISING

EXPERIMENTATION AND CITIZEN PARTICIPATION

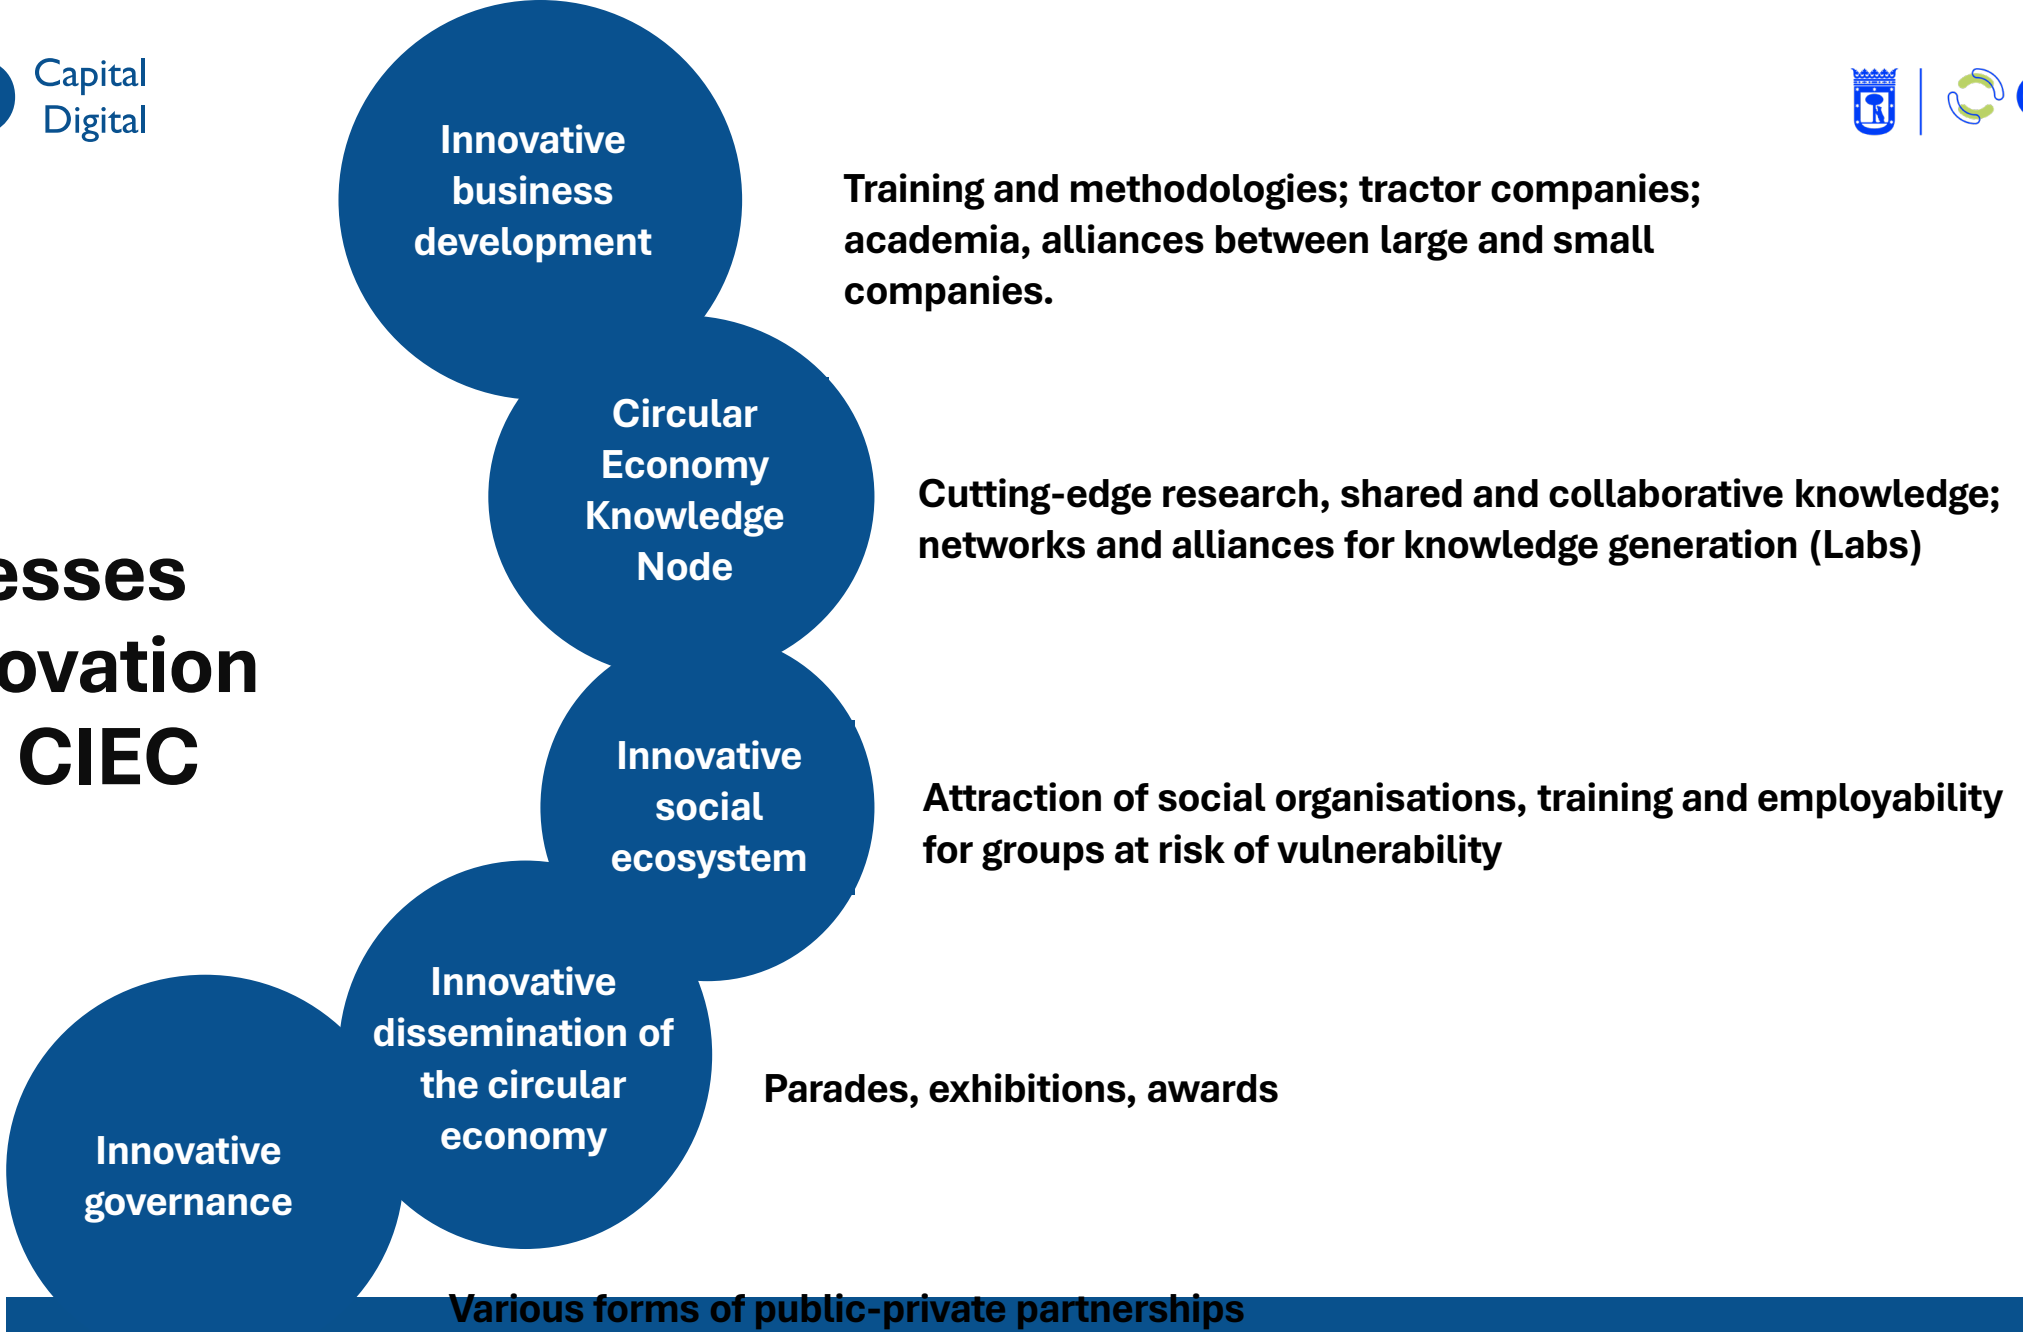

- Fab Lab
- SBN Lab

ICCS in figures

* Based on the data provided by the startups themselves, 60% of them have provided data updated to January 2024. Startups that are no longer active have not been taken into account in this data.
